

## Using your Epson printer or scanner with your Mac

Printer and Scanner drivers to use your Epson printer are distributed through Apple. Use one of the following methods to obtain the latest drivers for your Epson printer or scanner and computer running Mac OSX 10.6 or higher. The drivers support Printing, Scanning and Faxing where applicable.

The options to obtain the drivers are:

- When adding the printer in System Preferences
- Download the latest drivers from the Apple support website
- Use Apple Software Update (10.6/10.7) or App Store (10.8+)

If you have trouble printing after installing the latest drivers CLICK HERE.

## **System Preferences Instructions**

- 1. Connect your printer to your computer with USB or to your network with a wireless or wired connection.
- 2. Open System Preferences from the Apple menu on your Mac.

3. Click on the Print & Scan or Print & Fax icon.

4. Click on the **+ button** and select **Add Printer or Scanner**.

## **Download Instructions**

- Go to the following website to download the latest Epson Printer Drivers package from Apple. <u>https://support.apple.com/kb/DL1792?locale=en\_AU</u>
   This link goes to the Apple support website which is not maintained by Epson Australia so the driver information may not be the latest from Epson.
- 2. Click the **Download** button to download the printer drivers. To confirm your printer model is supported click the link for more information.

$\mathbb{C}^{\times}$	Epson Printer Drivers v3.1 for OS X Download
This update installs Mavericks, OS X Mo	the latest software for your EPSON printer or scanner for OS X Yosemite, OS X untain Lion, and OS X Lion.
For more informatic http://support.appl	on about printing and scanning software, see e.com/kb/HT3669#epson

3. After the download has completed open the file and double click **EPSONPrinterDrivers.pkg**.

4. Enter your administrator password to allow installation to continue. **Click Install Software**.

R	Installer is trying to install new software. Type your password to allow this.

5. Do not change Install Location. Click Install.

00	🥪 Install EPSON Printer Software	
	Standard Install on "Mac 10.8"	
Introduction     License     Destination Select     Installation Type     Installation     Summary	This will take 1.68 CB of space on your computer. Click Install to perform a standard installation of this software on the disk "Mac 10.8".	
	Go Back Install	

6. Click Continue.

7. Click Agree to accept the software license agreement.

8. Click Continue.

9. Wait for the installation to proceed.

10. When installation has completed click **Close**.

## **Software Update Instructions**

Periodically your Mac should automatically run a **Software Update** check with Apple to see if there are any updates for your computer. If there are any updates available for your Epson drivers they will appear as a software update. Simply run the updates along with any Apple software updates.

> You can manually initiate the check by choosing **Software Update** from the **Apple menu**.

• For Mac OS X 10.8 or 10.9 use the Updates section of App Store to run updates for your computer. Just click the **Update** button.

If you get an error when trying to print after installing the latest drivers for your printer follow these steps:

1. Open System Preferences from the Apple Menu.

2. Open the **Sharing** preference pane.

3. Ensure there is a **Computer Name**. If there isn't, type one in and push the Return key.
